

Quarterly Engagement Report

for Vanguard-advised funds

Q2 2025

Candid and constructive discussions with directors and executives of companies held in Vanguard-advised funds are an important part of our Investment Stewardship program and help to inform our proxy voting.¹ These dialogues enable us to deepen our understanding of, and share our perspectives on, a wide range of corporate governance topics associated with long-term shareholder returns. Each engagement is focused on better understanding a company's corporate governance practices with respect to a particular topic, including board composition and effectiveness, board oversight of strategy and risk, executive pay, and shareholder rights.²

We are committed to providing Vanguard-advised fund investors and other interested parties with information regarding the activities the Investment Stewardship team conducts on behalf of the funds.

The following table lists the **356** companies that Vanguard's Investment Stewardship team engaged with during the second quarter of 2025 (April–June 2025). Bullets (•) indicate primary topics of the engagement. However, because these are open dialogues that can cover a wide range of issues over multiple discussions, secondary topics often arise.

- Vanguard's Investment Stewardship program is responsible for proxy voting and engagement on behalf of the quantitative and index equity portfolios advised by Vanguard (together, "Vanguard-advised funds"). Vanguard's externally managed portfolios are managed by unaffiliated third-party investment advisors, and proxy voting and engagement for those portfolios are conducted by their respective advisors. As such, throughout this document, "we" refers to Vanguard's Investment Stewardship program and "the funds" refers to Vanguard-advised funds.
- With respect to companies held by Vanguard-advised funds, we do not seek to dictate strategy or operations, nor do the Vanguard-advised funds submit shareholder proposals or nominate board members. We believe that the strategies and tactics for maximizing long-term shareholder returns should be decided by a company's management and board of directors. Similarly, Vanguard does not use investment stewardship activities to pursue any public policy objectives. We believe that public policy, including public policy on social and environmental matters, is appropriately the responsibility of elected officials.

Vanguard publishes information regarding its voting and engagement activities, including the funds' proxy voting policies, Insights, and quarterly reports, to promote good corporate governance practices and to provide public companies and investors with our perspectives on important governance topics and key votes. This is part of our effort to provide useful disclosure of Vanguard's investment stewardship activities. We aim to provide clarity on Vanguard's positions on governance matters beyond what a policy document or a single vote can provide.
