In accordance with the Competition Regulations and by signing the completed official entry form for the Competition and submitting it to the FIFA general secretariat, each Participating Club acknowledges and agrees to comply in full with these Media and Marketing Regulations.
- 1.2 Ownership of rights: In accordance with the Competition Regulations and by signing the completed official entry form for the Competition and submitting it to the FIFA general secretariat, each Participating Club acknowledges and agrees that, subject to the terms and conditions set forth in these Media and Marketing Regulations, any and all Media Rights, Marketing Rights, Intellectual Property Rights (including in relation to the Competition Marks) and all other commercial or other rights and opportunities (including any title and interest in, and to, the Competition, including all Competition Matches and all ancillary events organised in connection with the Competition), whether currently existing or created in the future, shall be exclusively and solely owned and controlled, on a worldwide basis, by FIFA, as the world governing body of association football, based on its organisational, logistical and financial contributions, roles and responsibilities in relation to the Competition.

Except as explicitly otherwise set forth in these Media and Marketing Regulations, no Participating Club is entitled to directly or indirectly exploit or in any manner use any Media Rights, Marketing Rights, Intellectual Property Rights (including in relation to the Competition Marks) and/or any other commercial or other rights and opportunities (including any title and interest in, and to, the Competition, including all Competition Matches and all ancillary events organised in connection with the Competition), whether currently existing or created in the future.

Each Participating Club shall be prohibited from challenging by any means FIFA's ownership of any Media Rights, Marketing Rights, Intellectual Property Rights and all other commercial or other rights and opportunities (including any title and interest in, and to, the Competition or the respective part thereof, including all Competition Matches and all ancillary events organised in connection with the Competition), whether currently existing or created in the future.

- 1.3 Cooperation of Participating Clubs: As a general principle, each Participating Club and, to the extent applicable, each Team Delegation Member must strictly comply with the terms and conditions outlined in these Media and Marketing Regulations in relation to participating in the Competition. Each Participating Club is fully responsible for the full compliance with these Media and Marketing Regulations by its Team Delegation Members, its Club Affiliates and any third party contracted to the Participating Club, and shall therefore immediately notify its Team Delegation Members, its Club Affiliates and further contracted third parties of the content of these Media and Marketing Regulations. Each Participating Club shall inform its Club Affiliates that they have no Marketing Rights or Media Rights in connection with the Competition and, in particular, that they may not conduct any promotional activities which involve the use of FIFA's marks or Competition Marks or any other marks which are confusingly similar to FIFA's marks or the Competition Marks.

Each Participating Club shall assist FIFA in resolving any intellectual property infringements or Ambush Marketing involving the Club Affiliates. Participating Clubs are expressly prohibited from identifying their Club Affiliates in connection with any of the Competition Marks or FIFA's marks in any media (including but not limited to any promotional materials) in such a way as may give rise to an association between their Club Affiliates and FIFA or the Competition.

Participating Clubs shall indemnify, defend and hold FIFA, each LOC and all of their officers, directors, employees, representatives, agents and all other auxiliary persons free and harmless against any and all liabilities, obligations, losses, damages, penalties, claims, actions, fines and expenses (including reasonable legal expenses) of whatsoever kind or nature resulting from, arising out of, or attributable to, any non-compliance with these Media and Marketing Regulations by the Participating Clubs, their Team Delegation Members, their Club Affiliates and any third parties contracted to the Participating Clubs.

- 1.4 No right of association: No third party may, other than as permitted under these Media and Marketing Regulations and/or as separately authorised by FIFA, do anything which gives rise to any association between such third party and the Competition and/or FIFA, or which directly or indirectly exploits the goodwill associated with the Competition and/or FIFA.
- 1.5 Notification by Participating Clubs: Participating Clubs shall immediately notify FIFA, in writing, of any infringement of these Media and Marketing Regulations of which they become aware.

- 1.6 Transfer of rights: To the extent that any local or national laws or regulations may result in any rights, including any Media Rights, Marketing Rights, Intellectual Property Rights (including in relation to the Competition Marks), in relation to the Competition, or any Competition Match or any ancillary events organised by, or under the auspices of, FIFA in connection with the Competition being owned or controlled by any Confederation, Host or Participating Club (whether by virtue of the hosting or organisation of (in respect of each Host), or the participation in, any Competition Match, or otherwise), the relevant Confederation, Host or Participating Club hereby unconditionally assigns and/or transfers to FIFA, free of any charge, any and all such rights in perpetuity for FIFA's unfettered exploitation, and waives any and all claims to exercise and/or exploit such rights itself or to grant to any third party the right to exercise such rights.

Upon request by FIFA, the relevant Confederation, Host and/or Participating Club agree(s) to execute, at its/their own costs, in a timely manner and in compliance with any instructions given by FIFA, any and all clearances or other documents as may be required by any local or national laws or regulations to effect such assignment, transfer and/or waiver of such rights to FIFA and to enable the free and unfettered, direct or indirect, exploitation of any and all Media Rights, Marketing Rights, Intellectual Property Rights and other present or future commercial and other rights and opportunities by FIFA.

- 1.7 Club Marks: To assist with the implementation of these Media and Marketing Regulations, subject to the terms and conditions set forth below, each Participating Club hereby licenses to FIFA the right to use and/or the right to sublicense the right to use, in perpetuity and free of any charge, any Club Marks as well as the visual representations of the Playing Equipment and uniforms in connection with the participation of the Participating Club in the Competition.

In this regard, in relation to Competition-related merchandising, each Participating Club agrees that FIFA shall be entitled to use and/or sublicense the right to use any of the Club Marks (on a stand-alone basis or in combination with the Club Marks of other Participating Clubs) together with FIFA's marks and/or the Competition Marks, provided that all such goods or items of merchandise are otherwise unbranded. Participating Clubs shall, upon request, provide notification to FIFA (and/or any nominee of FIFA) of their acknowledgement of this provision.

FIFA's right to use and/or sublicense such Club Marks and the visual representations of the Playing Equipment and uniforms shall be exclusive in respect of, or in connection with, the

filming, recording and broadcasting of any Competition Match in any media.

FIFA's right to use and/or sublicense such Club Marks and the visual representations of the Playing Equipment and uniforms shall be non-exclusive in respect of all other uses, whether it be in connection with the promotion of the Competition or use in electronic or print publications, electronic software games, media-related products and services, merchandising, philatelic and numismatic products or otherwise.

In any case, FIFA shall not apply any variations or modifications to the official versions of the Club Marks as determined by each Participating Club and shall not use any Club Marks in any manner which:

- i) would imply that any Participating Club endorses a product or brand of any commercial entity, including any Commercial Partner;
- ii) is deceptive or misleading;
- iii) compromises or reflects unfavourably upon the good name, goodwill, reputation, political or religious impartiality and image of the Participating Club;
- iv) compromises physical appearance, sexualises, objectifies, discriminates or reinforces negative stereotypes or behaviours; or
- v) may jeopardise or limit the Participating Club's proprietary interests in the Club Marks.

With the sole exception of the usage by FIFA of the Club Marks for mere editorial purposes in any form, FIFA shall:

- i) not use the Club Marks on a stand-alone basis, and must always use any Club Mark with either a minimum of three other Club Marks or a Competition Mark (provided always that Commercial Partner usage of any Club Mark in accordance with these Media and Marketing Regulations shall only be permitted with a minimum of three other Club Marks); and
- ii) ensure that no single Club Mark, where used with such other Club Marks, receives prominence over any other Club Mark on any single item of merchandise or promotional material.

- 1.8 Team Delegation cooperation and consent: To assist with the implementation of these Media and Marketing Regulations, each Participating Club shall i) ensure that all Team Delegation Members participate in a FIFA photo and/or video shoot (all such photographs and images may be used and/or sublicensed by FIFA in accordance with the remainder of this article 1.8); and ii) secure written confirmation from each Team Delegation Member of FIFA's right to use and/or FIFA's right to sublicense the right to use, in perpetuity and free of any charge, any of their records, names, photographs and images (including any still and moving representation thereof), which may appear or be generated in connection with the participation of the Team Delegation Members in the Competition (including but not limited to photographs of Team Delegation Members taken for accreditation purposes). FIFA may not use the Team Delegation Members' records, names, photographs and images (including any still and moving representation thereof) in any manner which would imply that any Participating Club and/or Team Delegation Member endorses the products or brands of any commercial entity, including any Commercial Partner.

FIFA's right to use and/or sublicense such records, names, photographs and images shall be exclusive in respect of, or in connection with, the filming, recording and broadcasting of any Competition Match or any official media product relating to the Competition or to FIFA (e.g. the Official FIFA Film, etc.) in any media.

FIFA's right to use and/or sublicense such records, names, photographs and images shall be non-exclusive in respect of all other uses, whether it be in connection with the promotion of the Competition, any editorial use in any media, irrespective of the transmission form (including, without limitation, electronic or print publications, television feeds, broadband and mobile feeds, giant screen presentations, downloadable images), electronic software games, media-related products and services, merchandising, philatelic and numismatic products or otherwise, promotion of the media products and programming, save that FIFA may not exercise any such rights in any manner which would imply that any Team Delegation Member endorses the products or brands of any commercial entity, including any Commercial Partner.

Each Participating Club shall secure any and all necessary authorisations for FIFA to use information about the players of the Participating Clubs (such as players' statistics – height, weight, age, etc.) as well as details of the Participating Club's history in connection with its participation and that of its Team Delegation Members in the Competition.

2. COMPETITION MARKS

- 2.1 Ownership of Competition Marks: FIFA is and remains the sole owner of all of the

Competition Marks, and retains the sole right to develop any marks, logos and symbols for and/or in connection with the Competition.

- 2.2 No development of competing marks: To i) ensure consistency in the “look and feel” of the entire Competition and ii) prevent and/or arrest any instances of Competition-related Ambush Marketing by Club Affiliates or other third parties, each Participating Club must ensure that neither itself, nor any of its Club Affiliates, nor any third party contracted to a Participating Club, develops, uses, registers, adopts or creates any mark, logo or symbol which refers to the Competition, or which is in FIFA’s reasonable opinion confusingly similar to, is a colourable imitation of, a derivation of, or which unfairly competes with any of the Competition Marks.

In particular, each Participating Club agrees to refrain from, and to ensure that its respective Club Affiliates and all contracted third parties refrain from, the development, use or registration of any name, logo, trademark, indicia, brand name, symbol, service mark or other mark (whether registered or unregistered) or designation which may be inferred by the public as identifying with FIFA, any phase of the Competition or the LOC, including the words “Intercontinental Cup”, “Copa”, “Cup”, “Coupe”, “Pokal”, “FIFA”, “Coupe Intercontinentale”, “Copa Intercontinental”, “IP” or “Interkontinental-Pokal” (or any other term used in any language which, in FIFA’s reasonable opinion, is capable of identifying the Competition), or the development, use or registration of any dates in conjunction with the name of any Competition Territory or host venue/city, or any similar indicia or derivation of such terms or dates in any language.

- 2.3 No challenge to Competition Marks: Each Participating Club undertakes not to oppose, and to ensure that none of its Club Affiliates or contracted third parties oppose, any of the trademark or copyright applications filed by FIFA, Commercial Partners or other affiliates authorised by FIFA, nominees or licensees in respect of the Competition Marks, or seek to cancel any such registrations held by FIFA. No Participating Club may in any way challenge, or apply for any copyright, trademark or patent protection or domain name registration in respect of the Competition Marks which would adversely affect FIFA’s proprietary interests in the Competition Marks. In the event that any Club Affiliate or contracted third party opposes any trademark or copyright application filed by FIFA or any affiliate, nominee or licensee of FIFA in respect of the Competition Marks, the relevant Participating Club must ensure, and take all measures required by FIFA to ensure, that the relevant entity immediately desists from such activity. The provisions of this article 2.3 do not apply where a Competition Mark includes an intellectual property right belonging to a Participating Club (or Club Affiliate or contracted third party) which was registered prior to the publication of these Media and Marketing Regulations.

3. AMBUSH MARKETING PROHIBITION AND FURTHER INFRINGEMENTS

- 3.1 Anti-infringement undertaking: The commercial value of the Competition (and the value of any commercial rights to the Competition) may be substantially diminished if any Club Affiliate or any third party contracted to a Participating Club engages in or permits any Ambush Marketing activity. FIFA's ability to finance the Competition may be substantially diminished by Ambush Marketing. Each Participating Club is therefore required to ensure that its Club Affiliates and further contracted third parties i) do not directly or indirectly become (or seek to become) associated with FIFA, the Competition, or any other competition or event organised by, or under the auspices of, FIFA; ii) do not exploit the goodwill of the Competition, FIFA, or any other competition or event organised by, or under the auspices of, FIFA; and iii) comply with the provisions of these Media and Marketing Regulations regarding the use of the Competition Marks.
- 3.2 Notification to Participating Clubs: In accordance with current practice, FIFA will notify a Participating Club if any of its Club Affiliates, or any third party contracted to the Participating Club, is conducting any activity which, in FIFA's reasonable opinion, constitutes a violation of these Media and Marketing Regulations, including but not limited to the following violations:
- i) an infringement of FIFA's Intellectual Property Rights (including in relation to the Competition Marks);
 - ii) an unauthorised competition, sweepstake or other advertising or promotional activity involving, purporting to involve, or which could reasonably be understood to involve, the use of Competition tickets or access to Official Training Sites;
 - iii) an infringement of the restrictions on the activities of the Club Affiliates or any third party contracted to the Participating Club as described in these Media and Marketing Regulations; or
 - iv) any other Ambush Marketing.
- 3.3 Scope: The provisions of articles 3.1 and 3.2 above apply even if the infringing activities are not directly connected to the relevant Club Affiliate's or contracted third party's association with the Participating Club.

- 3.4 Cessation of Ambush Marketing: Following written notification by FIFA of any Ambush Marketing or any further violation by any Club Affiliate or any third party contracted to a Participating Club, each Participating Club will ensure, and take all measures required by FIFA to ensure, that the relevant Club Affiliate or contracted third party immediately ceases and desists from such activity and that such Club Affiliate or third party provides FIFA with written undertakings agreeing to immediately cease and desist from, and to refrain from any future occurrences of, any Ambush Marketing or further violation of these Media and Marketing Regulations. This provision applies whether the Ambush Marketing is conducted by the Club Affiliate or contracted third party itself or by any of its affiliated or group companies.
- 3.5 Notification by Participating Clubs: Each Participating Club shall use its best efforts to monitor the advertising market in its home country for any Ambush Marketing conducted in that market and shall promptly notify FIFA about any such activity.

- 7.1 Equipment Regulations: During the Competition Period, each Participating Club must fully comply with the Equipment Regulations in their applicable form. In case of any inconsistency of these Media and Marketing Regulations with the Equipment Regulations, these Media and Marketing Regulations shall take precedence over the terms of the Equipment Regulations, and in such case the relevant terms of the Equipment Regulations shall be deemed amended accordingly. In keeping with the “clean site” principles at the Competition, the following additional provisions shall apply to Equipment within the Controlled Areas (including the “inner enclosure”) during the Competition Period:
- i) Equipment: Recognition of sponsor advertising of a single Club Affiliate on Playing Equipment is permitted on the front of the Participating Club’s shirt, provided that:
 - a) The Club Affiliate’s sponsor advertising represents a single brand and not any form of combination or composite branding. Combination or composite branding may include, by way of example only, sponsor advertising graphic representations composed of two or more distinct products or brands, or a composite brand name which, if separated, comprises two or more distinct brand names.
 - b) the Club Affiliate is the main sponsor of the Participating Club;
 - c) the Club Affiliate sponsor advertising displayed during the Competition corresponds to the Club Affiliate sponsor advertising displayed on the

players' shirts throughout the latest or current season of the Participating Club's domestic league and/or throughout the international club competition that enabled the Participating Club to qualify for the Competition;

- d) the surface area of the Club Affiliate sponsor advertising does not exceed 200cm² (two hundred square centimetres) and must be positioned on the front of the shirt, in the centre of the torso;
- e) the advertising of tobacco or strong alcoholic beverages (e.g. liquors and spirits), as well as slogans of a political, sexist, religious or racist nature, or for other causes that offend common decency, are strictly prohibited; and
- f) for the avoidance of doubt, no Club Affiliate sponsor advertising or recognition (not being of the manufacturer in accordance with the Equipment Regulations) is permitted on any other piece of Playing Equipment.

The Participating Club's sports equipment must otherwise comply with the Equipment Regulations and all applicable laws of each Competition Territory. All restrictions on Playing Equipment set out in the Equipment Regulations shall also be deemed to apply to all apparel, Special Equipment items, such as items worn underneath Playing Equipment, and all items and apparel worn in replacement of Playing Equipment, including T-shirts and any "celebratory" apparel worn and/or displayed by any Team Delegation Members during or following the conclusion of any Competition Match.

- ii) Bags and further items: All bags and/or further items used by, or belonging to, Team Delegation Members which are brought into any Competition Stadium (including pitch level (i.e. the stadium bowl) and all media areas, including the mixed zones) on Matchdays and/or non-Matchdays in case of an official training session must be free of all branding other than i) the official emblem of the Participating Club (in accordance with the terms and conditions set forth in the Equipment Regulations, which apply accordingly); and ii) the logo of the manufacturer. The maximum size of the manufacturer's logo shall be 25cm². No more than one manufacturer's logo may appear on any such bag or further items.
- iii) Formal attire: All formal attire (such as ties, suits, dress shirts, accessory items, etc.) worn by the Team Delegation Members within the Controlled Areas must be completely free of third-party (neither commercial nor manufacturer)

branding (whether sewn in or separately attached), other than the emblem of their Participating Club. The same restriction applies to both formal attire and Special Equipment items if formal attire is worn together with Special Equipment items.

- iv) Submission of Equipment items to FIFA: Pursuant to the Equipment Regulations, each Participating Club shall submit to FIFA, for FIFA's approval, one sample of all Equipment items to be worn by its Team Delegation Members within the Controlled Areas during the Competition Period, namely all Playing Equipment, Special Equipment and further apparel worn in replacement of Playing Equipment (including any "celebratory" apparel) and all formal attire. Participating Clubs shall be notified by FIFA of the deadline for the submission of such items.
- v) Wearable technology: Special items worn by players for performance-related purposes, such as electronic performance and tracking system devices, must be tested and certified by, or under the auspices of, FIFA subject to Law 4 of the Laws of the Game, before they are allowed to be used during any Competition Match. Any Participating Club intending to use such devices must inform FIFA and ensure that any such device is on the FIFA list of approved devices or that the technology provider is in the process of completing the testing and certification process in order for the device to be approved ahead of the Competition. Detailed information about the testing and certification process can be found at inside.fifa.com/innovation/standards/epts.

Any data collected by such special item and any interpretation of such data may only be used by the respective Participating Club and/or the individual player for performance-monitoring purposes (including physical, technical and tactical data). Any use of such data, or interpretation thereof, for any other purpose, in particular for commercial purposes, in association with any third party and/or the disclosure of such data and/or interpretation thereof to the public is strictly prohibited. The use of any such special item inside the technical area of a Competition Stadium is prohibited. The special items worn by players for performance-related purposes shall not display any branding of the manufacturer or any third party, with the exception of one tonal identification of its manufacturer, which shall not be visible whilst such special item is used.

In order to protect the integrity of, and FIFA's rights in, the Competition, FIFA may impose further restrictions on the collection, use and/or interpretation of

the data collected by such special items worn by players for performance-related purposes.

7.2 No advertising on Equipment: Unless otherwise expressly permitted under the Equipment Regulations or these Media and Marketing Regulations, all Team Delegation Members are prohibited from displaying any

- i) commercial, political, religious or personal messages or slogans in any language,
- ii) commercial branding, and/or
- iii) manufacturer marks or name of any kind

on their Playing Equipment, Special Equipment, formal attire, further apparel worn in replacement of Playing Equipment or other items used including, without limitation, bags, ball bags, goalkeeping gloves, beverage containers and medical bags, or on their person for the duration of their stay in a Controlled Area on Matchdays (i.e. in respect of the Participating Clubs participating in the Competition Match in question) and non-Matchdays. This provision includes all personal items (including hats, sunglasses, bags, luggage, headphones and other fashion accessories) in the possession of, or worn by, the Team Delegation Members.

7.3 Equipment of ball boys and girls, player escorts and flagbearers: Notwithstanding article 35 of the Equipment Regulations, the Equipment items worn by ball boys and girls, player escorts and flagbearers during Competition Matches may display the branding of Commercial Partners as approved by FIFA.

7.4 Technical equipment: Once a Participating Club has arrived in a Competition Territory for the Competition, FIFA will provide the Participating Club with the following items for use during the entire Competition Period, unless otherwise specifically confirmed in writing by FIFA for certain non-centralised Competition Matches:

- i) two first-aid cases;
- ii) a certain number of plastic bottle carriers;
- iii) one cooler;

- iv) 50 plastic drinking bottles;
- v) 3 x 2 captain's armbands in contrasting colours;
- vi) three ball bags; and
- vii) official Competition match balls.

During the Competition Period, once a Participating Club has arrived at the Competition Stadium for a Competition Match or an official training session, the FIFA Match Director will provide each Participating Club with a sufficient number of player warm-up/training bibs (which shall exclusively bear FIFA, FIFA.com and/or Competition branding). These bibs must be used to the exclusion of any other branded or non-branded bibs, and no branding may be added to the player warm-up/training bibs provided by FIFA. The Participating Club must return such bibs after the conclusion of each Competition Match or official training session.

With the sole exception of training sessions at the Official Training Sites, during which the Team Delegation Members are permitted to use their own technical equipment provided by non-Commercial Partners, Team Delegation Members are not permitted to use any other items of the same or similar type of technical equipment in the Controlled Areas. The above exception shall not apply to official training sessions held at a Competition Stadium or Official Training Sites. In any case, during any training sessions at the Official Training Site and any official training sessions held at a Competition Stadium, the Team Delegation Members must exclusively use the official match ball of the Competition as provided by a Commercial Partner.

7.5 Consumption of beverages in Controlled Areas: The following provisions apply to the consumption of beverages in Controlled Areas, unless otherwise specifically confirmed in writing by FIFA for certain non-centralised Competition Matches:

- i) Supply of beverages: Participating Clubs will be provided with products from The Coca-Cola Company, including water and sports drinks, for use in the Controlled Areas. The quantity of beverages to be supplied shall be determined by FIFA.

If Participating Clubs wish to use beverage products manufactured by any other entity, they must be stored or contained in the plastic drinking bottles provided by FIFA as technical equipment, as outlined in article 7.4 above,

prior to arrival at the Controlled Area.

- ii) No competing beverage brands: Participating Clubs are expressly prohibited from bringing the beverage products of competitors of The Coca-Cola Company into the Controlled Areas, in particular the dressing rooms, pitchside areas at any Competition Stadium, Official FIFA/LOC Media Activities, mixed zones, interview rooms, and media and television centres, unless such products are contained within the containers provided by FIFA prior to arrival at the applicable Controlled Area.

8. SPECIFIC RULES FOR THE OFFICIAL TRAINING SITES

- 8.1 No advertising: Unless otherwise specifically confirmed in writing by FIFA for certain non-centralised Competition Matches, the only advertising which is permitted at the Official Training Sites is that of the Commercial Partners, to be erected by FIFA at its sole discretion. Unless otherwise specifically confirmed in writing by FIFA for certain non-centralised Competition Matches, Participating Clubs must not display, arrange for the display of, or authorise the distribution of any advertising or other promotional materials at the Official Training Sites. Notwithstanding this, the terms and conditions of article 11.2 iv) below shall apply regarding Club Media Activities at Official Training Sites.
- 8.2 Attendance and ticketing: Unless otherwise specifically confirmed in writing by FIFA for certain non-centralised Competition Matches, all training sessions at the Official Training Sites are controlled by FIFA and the LOC. Unless otherwise specifically confirmed in writing by FIFA for certain non-centralised Competition Matches, no Participating Club, Club Affiliate or any third party contracted to a Participating Club may run any kind of promotion associated with attendance at a training session at an Official Training Site. Unless otherwise specifically confirmed in writing by FIFA for certain non-centralised Competition Matches, no Participating Club, Club Affiliate or any further third party may sell or distribute, in any commercial or non-commercial form, tickets for attendance at an Official Training Site.
- 8.3 Sponsor recognition on training shirts and warm-up/training bibs: Notwithstanding article 7.1 above and excluding any official training sessions, training shirts, supplementary Equipment items and warm-up/training bibs worn by Team Delegation Members at Official Training Sites may display the branding of Club Affiliates or any third party contracted to the Participating Clubs.
- 8.4 Sales of food and beverages: Unless otherwise specifically confirmed in writing by FIFA for

certain non-centralised Competition Matches, with the exception of any arrangements made by FIFA with Commercial Partners, no third-party arrangements made by the Participating Clubs for food and beverages at the Official Training Sites are permitted.

- 8.5 Sales of merchandise: Unless otherwise specifically confirmed in writing by FIFA for certain non-centralised Competition Matches, with the exception of any arrangements made by FIFA, or by third parties appointed by FIFA, with official licensees, no third-party merchandise or any other licensing products shall be offered for sale or distributed at the Official Training Sites.

9. MEDIA ACTIVITIES AND COOPERATION WITH MEDIA IN CONTROLLED AREAS

- 9.1 Media cooperation: Each Participating Club must assist, and must ensure that each Team Delegation Member assists, to the best possible extent, FIFA, FIFA Content Production Crews, representatives of the Media Partners and accredited media representatives in their media activities during the Competition Period.
- 9.2 Access to Participating Clubs: To support FIFA with such documentation, editorial coverage and promotion of the Competition, each Participating Club is required to assist, and must ensure that each Team Delegation Member assists, to the best possible extent in their respective tasks, the FIFA Content Production Crews. FIFA will work with the Participating Clubs to establish good cooperation related to this access. Each Participating Club shall appoint one Team Delegation Member as a liaison between the Participating Club and FIFA and to act as team media officer.

Each Participating Club hereby grants FIFA, the FIFA Officials and/or their nominees, the non-exclusive right to gain preferred access, for interview purposes, to all Team Delegation Members, as reasonably requested by FIFA, the FIFA Officials and/or their nominees. Each Participating Club shall grant FIFA, the FIFA Officials and/or their nominees free access, at any time during the period commencing five days prior to the first Competition Match of the Participating Club and concluding 12 hours after the final whistle of the last Competition Match of the Participating Club, to any area in the facility in which a Participating Club is training and/or staying, including but not limited to the Official Training Sites, Team Hotels and any media centres of the Participating Club, as well as any area in which a Competition Match is being staged.

In connection with the Participating Clubs' dressing rooms at the Competition Stadiums and Official Training Sites, and at Team Hotels, such access shall only be granted upon permission by the competent Team Delegation Members (not to be unreasonably

withheld), it being understood that sporting concerns and the privacy of Team Delegation Members shall prevail.

Without prejudice to the above, each Participating Club must ensure that Team Delegation Members are available in the “pre-mixed zone area” of the applicable Competition Stadium and in such area of the applicable Official Training Site as designated by FIFA for post-match and post-training session interviews, respectively, upon reasonable request by FIFA, the FIFA Officials, the FIFA Content Production Crews or their nominees.

- 9.3 Dressing room access for filming and/or photography purposes: Notwithstanding article 9.2 in respect only of the final Competition Match, the winning Participating Club shall grant the FIFA Content Production Crew or its nominees access to its dressing room for filming and/or photography purposes immediately following its return to the dressing room after the match for a duration of approximately ten minutes for the purpose of non-live filming and still-image photography. During its/their stay in the dressing room of the winning Participating Club, the FIFA Content Production Crew or its nominees shall respect the privacy of Team Delegation Members and shall act as non-intrusively as possible in a manner to be agreed upon with the dedicated liaison of the Participating Club.

FIFA may ask for post-match access to film the dressing room celebrations of the winning team for all other Competition Matches. Permission to film such celebrations for these matches (not the final match) is at the discretion of the Participating Clubs.

9.4 Media activities:

- i) Club Media Day: For the purpose of providing members of the media with an opportunity to meet players, coaches, and Participating Club officials in order to make in-depth previews, the Participating Clubs are requested to organise a “Club Media Day”. The Club Media Day shall be held either at the Participating Club’s home stadium or home training ground and shall take place preferably between three to four weeks before the first Competition Match of the Participating Club in question or immediately after the Participating Club’s qualification for the Competition, if later.

It is essential that the FIFA Content Production Crews (including the Competition host broadcaster), Media Partners and other FIFA representatives, as well as international and domestic members of the media, be permitted access to the Participating Club’s Club Media Day.

- ii) Pre-Competition media activities: Any pre-Competition media activities described in this section are entirely discretionary, will only take place if agreed in advance between FIFA and the Participating Club, and are subject to the availability of the relevant individuals. Irrespective of whether a Participating Club organises and hosts a “Club Media Day” in accordance with article 9.4., the below media activities may take place:
- a. FIFA may request to conduct and film sit-down interviews, each lasting approximately twenty (20) minutes, with up to four (4) of the Participating Club’s players who are likely to be a member of the Participating Team’s starting eleven for their first Competition Match. Players may be required to answer various questions posed by FIFA and may be required to provide short promotional statements to camera. In addition, FIFA may request ten (10) minutes to capture of short-form social media content (including but not limited to quick-fire questions, light promotional messages, and behind-the-scenes material) with such players, to be used across FIFA’s official digital and social platforms.
 - b. FIFA may request to conduct and film one sit-down interview lasting approximately twenty (20) minutes with each Participating Club’s head coach at a Competition-related event or upon FIFA request.
 - c. FIFA may request to conduct one photography session lasting approximately ten (10) minutes with each Participating Club’s head coach and up to four (4) players at a Competition-related event or upon FIFA request,
 - d. Any such content produced under this section may be used by FIFA and the Media Partners to promote the Competition (including Competition-related social media campaigns) and for the “in-tournament” delivery of the Competition (including player and coach profiles, big screen and broadcaster line-ups, soundbites, b-roll and announcements to camera).
- iii) Arrival in Competition Territory: On the day of its arrival in a Competition Territory or on or before the day of arrival of the opposition where the Participating Club may be already based in the location of the Competition Match, each Participating Club is obliged to hold Official FIFA/LOC Media Activities, ensuring the presence of its head coach and at least one player who is likely to be a member of its starting XI for its first Competition Match in that

territory. FIFA Content Production Crews and/or the Competition host broadcaster may film the arrival of each Participating Club in each Competition Territory, and each Participating Club shall provide the opportunity to do so.

Upon arrival in the Competition Territory, FIFA may request to conduct a video and photography session (not including any interviews, which are detailed above) lasting up to two (2) hours with the full squad (including all players and coaches) in the playing kit to be worn during the Competition, at a time and location to be agreed and coordinated between the Participating Club and FIFA (each acting reasonably) to capture content for FIFA and the Media Partners to promote the Competition (including Competition-related social media campaigns) and for the “in-tournament” delivery of the Competition (including player and coach profiles, big screen and broadcaster line-ups, soundbites, b-roll and announcements to camera).

- iv) Training sessions: Before or after all training sessions (whether or not at a Competition Stadium), the Participating Club is encouraged to make its head coach and at least one player available to media representatives.
- v) Official FIFA/LOC Media Activities at Competition Stadium: Each Participating Club is obliged to participate in, and support, the Official FIFA/LOC Media Activities in the Competition Stadium in which the Participating Club is scheduled to play a Competition Match, as follows:
 - a. With the exception of one training session prior to each Competition Match, which cannot be the official training session on the day prior to a Matchday, all Participating Club training sessions shall be open to the media for at least 15 minutes following their commencement. The Participating Club shall inform FIFA, in writing, if it intends to exclude media representatives and FIFA Officials from a training session after providing them with 15 minutes’ access.
 - b. Under no circumstances will FIFA Officials or media representatives be permitted to enter the pitch before, during or after such training session.
 - c. An official press conference and/or mixed zone will be organised by FIFA at the relevant Competition Stadium on the day preceding the Matchday, following the official training session. This media activity must be attended

by the Participating Club's head coach and at least one player likely to be a member of the starting XI for the respective Competition Match. The official press conference and/or mixed zone will be held at the Competition Stadium, regardless of where the official training session is held.

- d. The attendance of a player at the press conference may be replaced by making at least three players available for interviews in a mixed-zone area around the training pitch for the official training session.
- e. Should a press conference not be organised for a match, the Participating Club should make its coach and at least three players available for interviews in the mixed-zone area around the training pitch for the official training session.
- vi) Matchday media activities: On Matchday, the Participating Club must ensure participation in the following Official FIFA/LOC Media Activities coordinated by FIFA at the Competition Stadium:
 - a. Sufficiently in advance before the arrival of the Team Delegation before each Competition Match, in close coordination with FIFA, the host broadcaster and an official photographer appointed by FIFA shall be granted access to the Participating Club's dressing room for filming and photos. This includes unilateral stand-up interviews by up to two Media Partners that are filmed by the host broadcaster.
 - b. Upon arrival of the Team Delegation before each Competition Match, the Participating Club's head coach or other members of the Team Delegation shall be made available for "upon arrival" interviews.
 - c. After each Competition Match, interviews shall be given by the Participating Club's head coach and certain players to representatives of the Media Partners:
 - i. as flash interviews on the pitch in the vicinity of the technical area; and
 - ii. as flash interviews in the players' tunnel or close to the team dressing rooms.
- vii) After each Competition Match:

- a. the Participating Club's head coach must attend the official post-match press conference, as must, if applicable, any player(s) receiving an individual award (e.g. "Player of the Match" award);
 - b. the player who is selected as the "Player of the Match" will be required to participate in the related post-match activation, including, without limitation, appearing for a photograph in front of the Presenting Partner's backdrop and accepting the commercially branded trophy associated with the award;
 - c. all of the Participating Club's players who took part in the match must pass through the mixed zone of the Competition Stadium after the final whistle to be available for interviews with the media; the mixed-zone activities should be concluded no later than 60 minutes after the final whistle;
 - d. players selected for doping control must remain available for flash interviews immediately following the match, if applicable, for the official FIFA post-match press conference and the mixed zone (prior to doping control, accompanied by an official chaperone and a FIFA Media Officer); and
 - e. each Participating Club agrees to ensure that its players cooperate in the signing of memorabilia items, the nature and quantity of which will be communicated by FIFA in due course (e.g. armbands, official jerseys) that have been committed to Commercial Partners by FIFA/LOC.
- viii) FIFA Intercontinental Cup 2025™ final: Ahead of the FIFA Intercontinental Cup 2025™ final, FIFA may propose an additional activity to the Participating Clubs in order to promote the final (for example, the capture of an iconic image featuring the Participating Clubs' captains or key players at a unique location in the city of the match). This activity shall be discussed and/or aligned with the team media officers of both Participating Clubs and, if agreed, will take place on 15 or 16 December.
- ix) All Official FIFA/LOC Media Activities shall be free of all advertising or branding materials relating to any third party (including Club Affiliates or any third party contracted to the Participating Clubs). This restriction includes, but is not limited to, backdrops, signage, products, services and (other than permitted

by the Equipment Regulations or pursuant to articles 7.1 to 7.5 above) branding on Equipment, other apparel or further items worn or used by players and/or other Team Delegation Members.

- x) Media guides and other publications may not be distributed by or on behalf of any Participating Club, Club Affiliate and/or any other third party at any Official FIFA/LOC Media Activities, unless previously approved by FIFA in writing.
- xi) Players and other Team Delegation Members may not make any verbal reference to:
 - a. any Club Affiliate and/or any third party contracted to the Participating Clubs;
 - b. any sponsor of a Team Delegation Member; or
 - c. any other commercial entity.

10. SPECIFIC RULES FOR THE TEAM HOTELS

- 10.1 No advertising: Unless otherwise specifically confirmed in writing by FIFA for certain non-centralised Competition Matches, Participating Clubs are not permitted to display, arrange for the display of, or authorise the distribution of any advertising or other promotional materials at Team Hotels, including in the internal public areas (such as the lobby) or the external grounds. Notwithstanding this, the terms and conditions of article 11.2 iii) below shall apply regarding Club Media Activities at Team Hotels.

11.2 Club Media Activities: The restrictions set out in article 9 above shall also apply to all Club Media Activities outside of the Controlled Areas. With respect to any Club Media Activities, the following provisions shall also apply:

- i) Press backdrops: The backdrop shown behind Team Delegation Members during any Club Media Activity may feature advertising and/or branding materials relating to third parties (such as Club Affiliates), but such advertising and/or branding materials must:

This prohibition extends to any recording devices used by or with the knowledge of Participating Clubs in the Controlled Areas (except for the Team Hotels).

subject to strict compliance with the following conditions and further subject to the terms of a Participating Club Footage Licence Agreement:

Without prejudice to any other provision of these Media and Marketing Regulations, the Participating Clubs acknowledge that any breach of the provisions of this article 11.4 is likely to put FIFA in breach of its

own commercial agreements and cause significant damage for which the relevant Participating Club may ultimately be held responsible.

11.5 Competition Stadiums: The following provisions apply:

Each Participating Club shall ensure that this team bus shall be the only method of transportation used by its players and officials for all Competition-related events (such as to and from Competition Matches, training sessions and/or official ceremonies). Unless otherwise specifically permitted by FIFA for non-centralised Competition Matches, except for the branding of the Commercial Partners and FIFA-approved slogans (e.g. fan messages), no promotional materials of any third party, including any Club Affiliates or any other third parties contracted to the Participating Club, may be displayed on or inside the bus.
- ii) Other vehicles: Unless otherwise specifically confirmed in writing by FIFA for certain non-centralised Competition Matches, all other vehicles used by Participating Clubs and/or any Team Delegation Member, and which are to be taken into any Controlled Area, must be free of all branding except for i) the customary branding of the manufacturer of such vehicle; ii) the branding for the Commercial Partners and FIFA-approved slogans; and iii) FIFA- or Competition-related branding. Participating Clubs and/or Team Delegation Members are not entitled to remove any such branding on such other vehicles. - ii) it has the prior written consent of FIFA and the Host for the Competition Territory in which the friendly match is proposed to be played;
- iii) no such match is played in a Competition Stadium; and
- iv) in case the written consent of FIFA and the applicable Host has been given for such friendly match, no association shall be created between the friendly match and the Competition, no Competition Marks shall be used and no verbal association shall be made, for example “The Road to...”, in any

marketing, promotional or advertising materials produced in connection with the friendly match.

11.9 Team Media Centre: A Participating Club may establish its own Team Media Centre ("TMC") before and during the Competition. All costs involved in the installation and management of TMCs shall be borne solely by the Participating Club concerned.

11.10 Participation in social functions and other events: Each Participating Club shall ensure that its Team Delegation Members are available to attend, at a minimum, the following official events associated with the Competition as determined by FIFA: one official luncheon and one official training session.

Except as otherwise stated in these Media and Marketing Regulations or approved by FIFA, each Participating Club shall ensure that neither it nor any of its Team Delegation Members or other representatives engage, during their stay in each Competition Territory, in any social function, promotional activity or event other than those conducted, organised or held by the official sponsors of the Competition.

11.11 Use of Digital Media by Team Delegation Members: In order to protect the privacy of all Team Delegation Members, all members of the opposition's Team Delegation and all FIFA Officials, as well as the integrity of the sport, FIFA, the Competition and FIFA's Marketing Rights and Media Rights, each Participating Club must ensure that all Team Delegation Members uploading or posting content on any Digital Medium must comply with the following terms and conditions with respect to any form of content related to their personal experiences at the Competition, the Competition in general or any related information:

- iii) Team Delegation Members shall not disclose any information that is

confidential or private in relation to any third party, including, without limitation, information which may compromise the security, staging or organisation of the Competition, the security of any Participating Club or any Team Delegation, or the privacy of any Team Delegation Members, members of the opposition's Team Delegation or any FIFA Officials.

- iv) Any content uploaded or posted shall at all times be in the spirit of fair play, dignified and in good taste.

 - c. other FIFA-related words on their Digital Media or blogs,

in any case provided that the word "FIFA" and other FIFA Intercontinental Cup-related words are not associated with any third party or any third-party products or services, and are by no means used for any commercial purposes.

- vi) Team Delegation Members are prohibited from including any commercial reference in connection with the uploaded or posted content on their own Digital Media. In particular, no advertising and sponsorship opportunities shall be offered and/or sold to third parties in connection with FIFA- or Competition-related content.
- vii) Team Delegation Members may upload or post FIFA- or Competition-related content on any Digital Medium of third parties, provided that, in FIFA's opinion, no association is created between such third parties, any company or product and the FIFA- or Competition-related content, and that such content is by no means used for any commercial purposes.

Digital Media uploaders or bloggers may be held personally liable for any commentary deemed to be defamatory, obscene or proprietary.

12. TROPHY REGULATIONS

12.1 Trophy use requirements: The Participating Clubs will be provided with, and permitted to retain, certain Winner's Trophies based on sporting performance during the Competition, including the Intercontinental Cup Winner's Trophy following the final whistle of the final Competition Match. Under no circumstances may Club Affiliates of, or any third party contracted to, any Participating Club at any time create an association between themselves and any of the Original Trophies and/or the Winner's Trophies and/or any miniature replica thereof. In particular:

- i) the Winner's Trophies shall not be displayed at any Club Media Activity, or any other press conference, at which there is a backdrop or other venue dressing which displays the brands of any commercial entities other than of Commercial Partners;
- ii) the Winner's Trophies shall not be displayed or paraded at any event which is sponsored by or which provides brand recognition to any Club Affiliates or any

third party contracted to the Participating Club – by way of example, the Winner's Trophies may not be displayed or paraded as part of a celebratory tour which features or displays the branding of any Club Affiliates or any other commercial entities; and

- iii) the Club Affiliates of the winning Participating Club, or any contracted third party, are not entitled to use the Original Trophies, the Winner's Trophies, or any images of the Original Trophies or any other replica of the Original Trophies, including the Winner's Trophies, in any publicity or promotional materials or on any Digital Media celebrating the success of the Participating Club.

To preserve the status and commercial value of the Original Trophies, each Participating Club agrees that:

- i) except for miniature replicas of the Original Trophies as set out below, the Participating Clubs are not entitled to produce their own, unofficial replicas of the Original Trophies;
- ii) neither the Original Trophies nor the Winner's Trophies nor any other replica of the Original Trophies may be used, portrayed or exhibited in any manner which could be interpreted as being inappropriate, derogatory, or detrimental to the inherent value of the Original Trophies, or the brand, image or reputation of the Original Trophies;
- iii) no images of the Original Trophies or the Winner's Trophies may be used or licensed for use on items of clothing or other merchandise;
- iv) the Original Trophies are and remain FIFA trademarks and the Participating Clubs have no right or licence to use photographs of the Original Trophies, the Winner's Trophies or any further replica of the Original Trophies (or to grant any such right or licence) for any commercial purpose other than for purely editorial purposes to accompany written text in electronic or printed materials; the Participating Clubs agree to remind photographers, press and the media of these restrictions prior to all formal presentations of the Winner's Trophies or further replicas of the Original Trophies; and
- v) the Participating Clubs shall take all reasonable steps, at their own expense, to ensure the security of the Winner's Trophies while the Winner's Trophies are

in their possession.

Subject to the prior written approval of FIFA, the Participating Clubs may, at their own expense, appoint FIFA's manufacturer to produce miniature replicas of the Original Trophies to present to all Team Delegation Members of the Participating Club to which the trophy in question has been awarded only, provided that all such individuals undertake to FIFA not to use such miniature replicas of the Original Trophy in question for any commercial purpose whatsoever. Such miniature replicas of the Original Trophy in question must not exceed a height of 15cm and must otherwise be a "to scale" replica of the original.

It is further required that:

- i) the Winner's Trophies may remain in the temporary custody of the Participating Clubs in question but remain at all times the property of FIFA and must be returned immediately to FIFA if so requested by FIFA in writing;
- ii) the Winner's Trophies may not be provided to any third party for display or use without FIFA's prior written permission; and
- iii) any tours featuring the Winner's Trophies must be approved by FIFA in advance in writing.

12.2 Trophy use requirements – past winners: Trophies awarded to past Participating Clubs of the FIFA Intercontinental Cup™ must remain within the relevant club's direct control and should not leave the club's home country without the prior written consent of FIFA. Clubs which have been awarded a Winner's Trophy are required to ensure that the Winner's Trophy is always presented in the historical context of the respective competition and that they do not permit the Winner's Trophy awarded to them to be used in any way which could lead to an association by any third party, including Commercial Partners, Club Affiliates and/or any third party contracted to the clubs, with the applicable Original Trophy, the Competition and/or previous editions of the Competition. In particular, Club Affiliates and/or any third party contracted to the clubs may not be granted any rights or visibility where the applicable Original Trophy, the applicable Winner's Trophy or any further replica is present or portrayed. This prohibition shall also apply to the parading of, or a photo shoot with, the Original Trophies or Winner's Trophies as set out in this article by any Participating Club.

- 12.3 Merchandising restrictions – past winners: Participating Clubs awarded a Winner's Trophy in previous editions of the FIFA Intercontinental Cup™ are prohibited from developing, creating, using, selling or distributing any promotional materials or merchandise bearing any representation of the Original Trophy in question or any mark, emblem or device referring to any past edition of the FIFA Intercontinental Cup™. Furthermore, neither an Original Trophy nor a Winner's Trophy nor any stylised representation thereof may be portrayed on any Digital Medium.
- 12.4 Additional trophies at the discretion of FIFA, in addition to the Winner's Trophies, other trophies may be awarded during the Competition, subject to the same conditions as set out in this section.

13. PERMITTED USE OF COMPETITION MARKS

- 13.1 Use of Competition Marks by the Participating Clubs: The following provisions apply:
- i) General: Upon FIFA approval, the Competition Marks and the Composite Logo may only be used by Participating Clubs for the purpose of referring descriptively to their participation in the Competition. All commercial or promotional use of the Competition Marks and/or the Composite Logo by Participating Clubs and/or their Club Affiliates and/or any third party contracted to the Participating Clubs is strictly prohibited. The provisions of this article 13.1 shall apply from the date that these Media and Marketing Regulations come into force and shall continue to apply after the expiry of the Competition Period until FIFA notifies Participating Clubs otherwise.
 - ii) Competition Name: Participating Clubs are required, whenever referring to the Competition, to only use the Competition Name (and each such use must be in an editorial context only).
 - iii) Composite Logos: Participating Clubs are permitted to create a Composite Logo incorporating both the Official Emblem or Official Emblems and the Participating Club's own emblem. Upon request by the Participating Clubs, to be addressed to *ma.approvals@fifa.org*, the materials to form a Composite Logo may be downloaded from FIFA's online digital archive at www.FIFAdigitalarchive.com. The Composite Logo may only feature the Official Emblem and the Participating Club's own emblem as well as the descriptive designation "Finalist". No other mark may be included without FIFA's written permission, such permission being required before any use of

the Composite Logo. No other mark may be placed next to a Composite Logo in such a way that it causes confusion as to whether or not such mark is part of the Composite Logo. Participating Clubs must obtain FIFA's written approval of their Composite Logo prior to its use. The proposed Composite Logo must therefore be submitted to FIFA in writing to ma.approvals@fifa.org. For the avoidance of doubt, all uses of the Composite Logo must also be submitted for FIFA's approval in accordance with paragraph viii) of this article 13.1.

- iv) Use of Competition Marks and Composite Logos: Neither the Competition Marks nor the Composite Logo may be used in proximity to the names, logos or trademarks of Club Affiliates or any third party other than the Commercial Partners.

Furthermore, neither the Competition Marks nor the Composite Logo may be used by Participating Clubs in the following manner:

- as part of any advertising or promotional activity or strapline used in connection with any Club Affiliate;
 - on gifts, premiums, items of merchandise or articles of clothing and Equipment for sale to the public (such as team kits to fans) or for any other commercial purpose whatsoever; or
 - on any official printed matter (including stationery and business cards) of a Participating Club which also displays the names and/or logos of Club Affiliates (except where the names/logos are those of the parties appointed by FIFA as Commercial Partners of the Competition).
- v) Club-printed materials: Participating Clubs must ensure that their printed materials (whether printed or electronic) produced in relation to their participation in the Competition (such as posters, guides, media guides, programmes, magazines, maps, booklets, books, electronic publishing, physical, hosted or downloadable media, bulletins, etc.) do not feature any of the Competition Marks and/or the Composite Logo (or any other Competition-related trademarks) other than in a purely editorial context. For example, if a Participating Club publication has a Competition Mark and/or the Composite Logo on either its front or back cover (in a purely editorial context), no commercial identifications or advertisements (including those of Club Affiliates

or further third parties contracted to the Participating Club) shall appear on either the front cover or back cover. The Competition Name may be used in an editorial manner for descriptive purposes only. Competition Marks and the Composite Logo may appear inside Participating Club publications (solely in a purely editorial context), provided that they do not appear on or opposite a page displaying any commercial identifications or advertisements.

The covers and titles of club-printed materials must make it clear that they are publications of the Participating Club and not FIFA and/or LOC publications. As an example, the following title would be considered acceptable:

- “Official [Name of Publication] for [Team] at the FIFA Intercontinental Cup 2025™”

All such printed materials must be submitted for FIFA's approval in advance, in accordance with paragraph viii) of this article 13.1.

- vi) No association with Club Affiliates: Participating Clubs must ensure that no association whatsoever is created between their Club Affiliates and/or any third party contracted to the Participating Club, and the Competition in any of their promotional materials. Club Affiliates and/or any third parties contracted to the Participating Club shall not use any of the Competition Marks or the Composite Logo in any of their own materials, save in the event that they are Commercial Partners of the Competition or if they use the designation (for example) “[Sponsor] of [Participating Club] at the FIFA Intercontinental Cup 2025™”.
- vii) Other marks: Participating Clubs shall not use (and must ensure that their Club Affiliates and/or any third parties contracted to the Participating Clubs do not use) any other marks, devices, symbols, logos or phrases to identify the Competition (including the Original Trophies and/or the Winner's Trophies and/or any replicas thereof).
- viii) Premiums: The Participating Club which wins the Competition shall be permitted to produce premiums commemorating their winning of the Competition in accordance with the following:
 - any such premiums may include Team Identifiers (as defined in the Equipment Regulations) but may not include any other branding of any

- other third party;
 - any such premiums may refer to the Participating Club's victory but shall not use any Competitions Marks and/or any FIFA owned or controlled Intellectual Property Rights without the prior written approval of FIFA; and
 - any such premiums may only be distributed free of charge.
- ix) Approvals: All proposed uses of the Competition Marks and the Composite Logo, together with a summary of the proposed context and distribution channel, must be submitted to FIFA via the Marks Submission Forms on the FIFA Digital Archive platform or via email to ma.approvals@fifa.org. The form is linked to the competent approval coordinator at FIFA. A sample of all printed materials incorporating the Competition Marks and/or the Composite Logo must also be submitted for FIFA's prior written approval, showing their layout and the positioning of the Competition Marks and Composite Logo, as well as the marks and logos of the Club Affiliates and other third parties. Such samples must be submitted at least 30 days prior to the start of the Competition. Participating Clubs shall ensure that they make any changes requested by FIFA to bring the printed materials into compliance with these regulations.

13.2 Club websites: The following provisions apply in respect of the Competition:

- i) Link to FIFA.com: Each Participating Club must include a link to the relevant language section of FIFA.com on every page of its website that features content related to the Competition. This link shall comprise the Official Emblem(s) of the Competition. Please note that the Official Emblem(s) may not be used in any other manner and may not be used by any third parties, including Club Affiliates and/or any third party contracted to the Participating Club. Furthermore, the Official Emblem(s) may not appear in close proximity to the branding or names of any Club Affiliate and/or any third party contracted to the Participating Club.
- ii) Syndication package: Participating Clubs may obtain from the FIFA Partnerships & Media Division a FIFA.com content syndication package to use with their websites. The package will include the latest scores and headlines, amongst other information.
- iii) Online use of Competition Marks and Composite Logo: The Competition Marks and the Composite Logo may be used on Participating Club websites

provided that:

- they are used for editorial purposes only;
- the Participating Club has first obtained FIFA's prior written approval for such use by submitting a request, in writing, to ma.approvals@fifa.org;
- they are not used in association or connection with, or in proximity to, the name and/or logo of any commercial organisation, including Club Affiliates or any third party contracted to the Participating Club;
- they are not used as a hyperlink to any website or webpage; if a link to another website/webpage is desired, a text link would have to be used;
- they are not used or placed within the title bar, menu bar and/or the footer; and
- the use of the Competition Marks and/or Composite Logo on the Participating Club website always complies with this article 13 of these Media and Marketing Regulations.

- iv) URLs: The Competition Name may not be placed in the URLs of Participating Club websites.

14. COMPETITION TICKETING MATTERS

- 14.1 Ticketing conditions: Each Participating Club shall fully comply with, and ensure that all of its Club Guests fully comply with, all Competition ticket terms, conditions and regulations imposed and/or promulgated by FIFA and/or any third party authorised by FIFA to distribute any tickets for the Competition.
- 14.2 No use for advertising and/or promotional purposes: Each Participating Club must refrain, and must ensure that its Club Guests refrain, from any advertising or promotional activity which involves, purports to involve or could be understood as involving the use of tickets for the Competition, tickets for official or unofficial training sessions in any Competition Territory during the Competition Period, or tickets to any other event related to the Competition which is organised by, or under the auspices of, FIFA. In particular, each Participating Club must ensure that its Club Guests do not conduct any prize competitions, promotions, sweepstakes, lotteries or any further activities which, in FIFA's reasonable opinion, enable the Club Guests, or any third party, to create an association with FIFA and/or the Competition and/or which enable any third party, as a consequence of its participation in such activities, to receive access or entitlement to a Competition ticket.
- 14.3 Conduct of Club Guests, Club Affiliates and customers: Each Participating Club is required

to ensure that its Club Guests and Club Affiliates and/or any third parties contracted to the Participating Club are notified of, and comply with, the terms and conditions which apply to Competition tickets.

- 14.4 Ambush Marketing: Each Participating Club is required to ensure that all Club Guests and Club Affiliates and/or any third parties contracted to it refrain from conducting any advertising and/or promotional activity which could reasonably be regarded as ambushing the exclusive rights of the Commercial Partners, the Media Partners and FIFA, including refraining from any advertising and/or promotional activity which could lead to the reasonable assumption that Competition tickets or other rights of access to the Competition may be acquired by third parties in relation to such activities.

PART D: MISCELLANEOUS

15. MISCELLANEOUS

Each Participating Club shall immediately notify its Club Affiliates and contracted third parties of the content of these Media and Marketing Regulations and shall require its Club Affiliates to comply with the terms of these Media and Marketing Regulations. Participating Clubs are fully responsible for the full compliance of their Team Delegation Members, their Club Affiliates and/or any contracted third parties with these Media and Marketing Regulations, as well as with any further guidelines, directives and decisions issued by FIFA.
- 15.2 FIFA disciplinary matters: Any violations of these Media and Marketing Regulations or any other FIFA regulations, circulars, guidelines, directives and/or decisions that do not come under the jurisdiction of another body shall be dealt with by the FIFA Disciplinary Committee in accordance with the FIFA Disciplinary Code and all relevant circulars and directives.
- 15.3 Prohibited items: Any items used in a Controlled Area by Participating Clubs or their Team Delegation Members which do not comply with these Media and Marketing Regulations will be removed, confiscated, or covered up at the discretion of the appropriate FIFA Officials. The Participating Clubs may also face the sanctions imposed by the FIFA Disciplinary Committee.
- 15.4 No liability: FIFA shall not be liable to a Participating Club for any losses, fees, damages, or any costs whatsoever which may arise as a result of or in connection with the requirements contained in these Media and Marketing Regulations and/or in the Competition Regulations or the Equipment Regulations.
- 15.5 Interpretation: Capitalised terms shall have the meanings set out in the “Definitions” section of these Media and Marketing Regulations unless the context specifically indicates otherwise. Words importing the singular include the plural and vice versa, and any phrase introduced by the terms “including”, “include”, “in particular”, “for example”, “such as” or any similar expression shall not limit the sense of the words preceding or following such terms.
- 15.6 Inconsistency: To the extent that the Competition Regulations and the Equipment

Regulations are inconsistent with any aspect of these Media and Marketing Regulations, these Media and Marketing Regulations shall take precedence. The relevant terms of the Competition Regulations and Equipment Regulations shall be deemed amended accordingly.

- 15.7 Amendments: Upon notification to the Participating Clubs, FIFA may amend these Media and Marketing Regulations at any time and at its sole discretion.

FIFA, at any time prior to the Competition and at its sole discretion, remains entitled to publish guidelines and circulars to elaborate on or clarify aspects of these Media and Marketing Regulations or parts hereof.

- 15.8 Matters not provided for: Any matters relating to these Media and Marketing Regulations not expressly addressed herein (including cases of force majeure) shall be determined by the FIFA Council, the decision of which shall be binding and final.

- 15.9 Languages: These Media and Marketing Regulations exist in three FIFA languages (English, French and Spanish). In the case of any discrepancy in the interpretation of the English, French or Spanish texts of these Media and Marketing Regulations, the English text is authoritative.

- 15.10 No waiver: Any waiver by FIFA of any breach of these Media and Marketing Regulations (including of any document referred to in these Media and Marketing Regulations) will not operate as, or be construed to be, a waiver of any other breach of such provision or of any breach of any other provision or a waiver of any right arising out of these Media and Marketing Regulations or any other document. Any such waiver shall only be valid if given in writing. Failure by FIFA to insist upon strict adherence to any provision of these Media and Marketing Regulations, or any document referred to in these Media and Marketing Regulations, on one or more occasions will not be considered to be a waiver of, or deprive FIFA of the right to subsequently insist upon strict adherence to, that provision or any other provision of these Media and Marketing Regulations, or any document referred to in these Media and Marketing Regulations.

- 15.11 Future FIFA Intercontinental Cup™ editions: These Media and Marketing Regulations apply only to the Competition (and any Competition-related events as described herein) and shall not apply, or be deemed to apply, to future editions of the FIFA Intercontinental Cup™.
